

Republic Services Declines to Enter Merger Negotiations with Waste Management; Remains Committed to Allied Waste Transaction

July 18, 2008

After Thorough Analysis, Board Concludes that the Waste Management Proposal Does Not Constitute, and Could Not Reasonably Be Expected to Lead To, a Superior Proposal

FORT LAUDERDALE, Fla.--(BUSINESS WIRE)--July 18, 2008--Republic Services, Inc. (NYSE: RSG) announced today that its Board of Directors, after careful consultation with its legal and financial advisors, unanimously determined that the Waste Management Inc. (NYSE: WMI) proposal announced on July 14 does not constitute, and could not reasonably be expected to lead to, a transaction that is more favorable to Republic stockholders than the merger currently contemplated between Republic and Allied Waste Industries, Inc. (NYSE: AW). Republic stated that, having made such a determination, it may not, under Republic's existing merger agreement with Allied, furnish information to, and have discussions and negotiations with, Waste Management.

Republic stated that it has not put itself up for sale as a result of entering into a strategic merger with Allied Waste Industries, Inc. Republic's Board therefore has not authorized discussions between Waste Management and Republic. Republic also said that its Board of Directors has not changed its recommendation of the existing merger with Allied.

Chief Executive Officer
Waste Management, Inc.

Dear David,

I am writing to respond to your letter of July 14, 2008, proposing that, subject to due diligence, negotiation of definitive agreements, and other conditions contained in your letter, Waste Management, Inc. would acquire Republic Services, Inc. for \$34.00 per share in cash. Republic is not for sale. Although we are always cognizant of our fiduciary duties, Republic has not put itself up for sale as a result of entering into a strategic merger with Allied Waste Industries, Inc. Given the issues described below, the Waste Management proposal is not a basis for us to change Republic's strategic direction and we are concerned that it may be an effort by our largest competitor to disrupt our plans.

After careful consultation with our outside legal and financial advisors, our Board of Directors unanimously determined that the Waste Management proposal does not constitute, and could not reasonably be expected to lead to, a transaction that is more favorable to Republic stockholders than the merger currently contemplated with Allied. As you know, Republic is legally bound to its merger agreement with Allied, and under the merger agreement, having made such a determination, Republic may not furnish information to, and have discussions and negotiations with, Waste Management.

The Board is unanimously of the view that the Waste Management proposal seriously undervalues Republic. Republic's common stock was trading close to \$34.00 per share as recently as last month, before the Allied merger was announced. The Board believes that the merger between Republic and Allied will create significant value generating opportunities, including significant cost saving synergies, which will result in additional value for Republic stockholders. Financial analyses presented to our directors and Allied's directors, and which will be included in the joint proxy statement to be mailed to our stockholders, support a valuation substantially above \$34.00 per share. In your press commentary, you referred to the Waste Management proposal as "opportunistic." We believe that your proposal is opportunistic for you and that it will deny Republic stockholders the opportunity provided by the merger between Republic and Allied.

The Board also took several other factors into account, including the following:

- our assessment that a transaction with Waste Management will involve significant additional regulatory complexities and delays compared to the merger between Republic and Allied given the greater number of overlaps and the requirement to comply with Waste Management's 1999 consent decree;
- the fact that Waste Management has not obtained customary financing commitments for the more than \$6 billion of cash needed to complete your proposed transaction, which is especially troubling given the current turmoil in the global credit markets and the fact that both you and your financial advisors are very familiar with our company and this industry;
- your express condition that Waste Management maintains an investment grade rating as a result of the proposed transaction, especially given the large amount of debt Waste Management will need to undertake to finance its proposal and the recent announcement that Waste Management has been put on review for possible downgrade by Fitch and Moody's; and

- the extended timing that will be required to complete a deal with Waste Management.

Pursuant to the above considerations and others, discussed at length with outside legal and financial counsel, the Board of Directors of Republic unanimously determined that the Waste Management proposal does not constitute, and could not reasonably be expected to lead to, a Superior Proposal, as defined in Section 6.02 of the Republic-Allied merger agreement. Therefore, the Board has declined to authorize Republic to provide Waste Management with information or engage in discussions and negotiations with Waste Management.

On behalf of the Board of Directors,

/s/ James E. O'Connor
Chairman and Chief Executive Officer
