(b) Hypothetical Total Consideration as of 2:00 p.m. ET on June 3, 2016, and assuming a Settlement Date of July 5, 2016.

The tender offers will expire at the "Expiration Time," which is 11:59 p.m. ET on July 1, 2016, unless extended. Holders of Notes subject to the tender offers must validly tender and not validly withdraw their Notes on or before the "Early Tender Time," which is 5:00 p.m. ET, on June 17, 2016, unless extended, to be eligible to receive the Total Consideration (as described below). Holders of Notes who validly tender their Notes after the Early Tender Time but at or prior to the Expiration Time will receive the Tender Offer Consideration, which is equal to the Total Consideration minus the applicable Early Tender Payment. Tenders of Notes may be withdrawn at any time at or prior to 5:00 p.m. ET on June 17, 2016, and may not be withdrawn thereafter except under limited circumstances described in the Offer to Purchase.

The Total Consideration for each \$1,000 principal amount of Notes tendered and accepted for purchase pursuant to the tender offers will be determined in the manner described in the Offer to Purchase by reference to a fixed spread specified for each series of the Notes over the yield based on the bid side price of the U.S. Treasury Security specified in the table above, as quoted on the applicable Bloomberg Reference Page at 2:00 p.m. ET on June 20, 2016. Holders whose Notes are accepted for purchase pursuant to the tender offers will also receive accrued and unpaid interest on their purchased Notes from the last interest payment date for such Notes to, but not including, the Settlement Date. Subject to the terms and conditions of the tender offers, the Settlement Date will follow promptly after the Expiration Time and currently is expected to be July 5, 2016.

The tender offers may be amended, extended, terminated or withdrawn in whole or with respect to one or more series of Notes. A maximum of \$500,000,000 aggregate principal amount of the Notes tendered will be accepted for purchase. The amounts of each series of Notes that are purchased in the tender offers will be determined in accordance with the acceptance priority levels set forth in the Offer to Purchase and referenced in the table above, with 1 being the highest acceptance priority level and 4 being the lowest acceptance priority level. All Notes validly tendered and not validly withdrawn in the tender offers having a higher acceptance priority level will be accepted before any tendered Notes having a lower acceptance priority level are accepted in the tender offers. If the aggregate principal amount of any Notes validly tendered and not validly withdrawn in any acceptance priority level exceeds the amount of the Tender Cap remaining available for application to such acceptance priority level, then, if any Notes of such series are purchased in such offer, such Notes will be accepted on a *pro rata* basis (rounded to avoid the purchase of Notes in a principal amount other than in the authorized denominations for such series). If Notes with an acceptance priority level of 1 are accepted on such a *pro rata* basis, no series of Notes following such prorated series of Notes will be accepted for payment.

The tender offers are not conditioned upon any minimum amount of Notes being tendered but are subject to the satisfaction or waiver of certain conditions, including Republic obtaining available funds through a debt financing to pay the Total Consideration with respect to all Notes accepted for purchase in the tender offers on terms and conditions acceptable to Republic, in its sole discretion.
