We believe that presenting EBITDA and EBITDA margin is useful to investors because they provide important information concerning our operating performance exclusive of certain non-cash and other costs. EBITDA and EBITDA margin demonstrate our ability to execute our financial strategy, which includes reinvesting in existing capital assets to ensure a high level of customer service, investing in capital assets to facilitate growth in our customer base and services provided, maintaining our investment grade credit ratings and minimizing debt, paying cash dividends, repurchasing our common stock, and maintaining and improving our market position through business optimization. Although depreciation, depletion, amortization and accretion are considered operating costs in accordance with U.S. GAAP, they represent the allocation of non-cash costs generally associated with long-lived assets acquired or constructed in prior years.

We believe that presenting adjusted EBITDA and adjusted EBITDA margin, adjusted pre-tax income, adjusted tax impact, adjusted net income - Republic, and adjusted diluted earnings per share provide an understanding of operational activities before the financial impact of certain items. We use these measures, and believe investors will find them helpful, in understanding the ongoing performance of our operations separate from items that have a disproportionate impact on our results for a particular period. We have incurred comparable charges, costs and recoveries in prior periods, and similar types of adjustments can reasonably be expected to be recorded in future periods.

Restructuring charges. During the three and six months ended June 30, 2023 we incurred \$15.5 million and \$21.0 million, respectively, of restructuring charges primarily related to the redesign of our asset management, and customer and order management software systems as well as costs associated with the early termination of certain leases. During the three and six months ended June 30, 2022, we incurred \$5.9 million and \$11.9 million, respectively, of restructuring charges primarily related to the redesign of our general ledger, budgeting, and procurement enterprise resource planning systems, which was completed with the systems being placed into production in the fourth quarter of 2022.

Adjustment to withdrawal liability for multiemployer pension funds. During both the three and six months ended June 30, 2022, we recorded \$2.2 million of withdrawal costs from a multiemployer pension plan.

US Ecology acquisition integration and deal costs. During the three and six months ended June 30, 2023, we incurred \$10.6 million and \$18.2 million, respectively, and during the three and six months ended June 30, 2022, we incurred acquisition integration and deal costs of \$51.9 million and \$56.6 million, respectively, in connection with the acquisition of US Ecology. The acquisition closed on May 2, 2022. The 2023 costs primarily related to the integration of certain software systems as well as rebranding the business, and the 2022 costs included certain costs to close the acquisition and integrate the business.

Loss on extinguishment of debt and other related costs. During the six months ended June 30, 2023, we incurred a loss on the early extinguishment of debt of \$0.2 million related to the early repayment of a portion of our term loan facility. We incurred non-cash charges related to the proportional share of unamortized deferred issuance costs.

Adjusted Free Cash Flow

The following table calculates our adjusted free cash flow, which is not a measure determined in accordance with U.S. GAAP, for the six months ended June 30, 2023 and 2022:

	Six Months Ended June 30,	
	2023	2022
Cash provided by operating activities	\$ 1,766.2	\$ 1,563.2

US Ecology acquisition integration and deal costs, net of tax	12.1	66.8
Adjusted free cash flow	<u>\$ 1,264.7</u>	<u>\$ 1,151.7</u>

We believe that presenting adjusted free cash flow provides useful information regarding our recurring cash provided by operating activities after certain expenditures or recoveries. It also demonstrates our ability to execute our financial strategy and is a key metric we use to determine compensation. The presentation of adjusted free cash flow has material limitations. Adjusted free cash flow does not represent our cash flow available for discretionary payments because it excludes certain payments that are required or to which we have committed, such as debt service requirements and dividend payments.

Purchases of property and equipment as reflected on our consolidated statements of cash flows represent amounts paid during the period for such expenditures. A reconciliation of property and equipment expenditures reflected on our consolidated statements of cash flows to property and equipment received during the period follows for the six months ended June 30, 2023 and 2022:

	Six Months Ended June 30,	
	2023	2022
Purchases of property and equipment per the unaudited consolidated statements of cash flows	\$ 714.3	\$ 647.3

Property and equipment received during the period	<u>\$ 550.2</u>	<u>\$ 505.2</u>

The adjustments noted above do not affect our net change in cash, cash equivalents, restricted cash and restricted cash equivalents as reflected in our consolidated statements of cash flows.
