Average yield is defined as revenue growth from the change in average price per unit of service, expressed as a percentage. Core price is defined as price increases to our customers and fees, excluding fuel recovery fees, net of price decreases to retain customers. We also measure changes in core price, average yield and volume as a percentage of related-business revenue, defined as total revenue excluding recycled commodities, fuel recovery fees and environmental solutions revenue, to determine the effectiveness of our pricing and organic growth strategies. The following table reflects core price, average yield and volume as a percentage of related-business revenue for the three months ended March 31, 2024 and 2023:

(1) The income tax effect related to our adjustments includes both the current and deferred income tax impact and is individually calculated based on the statutory rates applicable to each adjustment.

(2) The aggregate impact to adjusted diluted earnings per share totals to less than \$0.01 for the three months ended March 31, 2023.

We believe that presenting EBITDA and EBITDA margin is useful to investors because they provide important information concerning our operating performance exclusive of certain non-cash and other costs. EBITDA and EBITDA margin demonstrate our ability to execute our financial strategy, which includes reinvesting in existing capital assets to ensure a high level of customer service, investing in capital assets to facilitate growth in our customer base and services provided, maintaining our investment grade credit ratings and minimizing debt, paying cash dividends, repurchasing our common stock, and maintaining and improving our market position through business optimization. Although depreciation, depletion, amortization and accretion are considered operating costs in accordance with U.S. GAAP, they represent the allocation of non-cash costs generally associated with long-lived assets acquired or constructed in prior years.

We believe that presenting adjusted EBITDA and adjusted EBITDA margin, adjusted EBITDA margin by business type, adjusted pre-tax income, adjusted tax impact, adjusted net income - Republic, and adjusted diluted earnings per share provide an understanding of operational activities before the financial impact of certain items. We use these measures, and believe investors will find them helpful, in understanding the ongoing performance of our operations separate from items that have a disproportionate impact on our results for a particular period. We have incurred comparable charges, costs and recoveries in prior periods, and similar types of adjustments can reasonably be expected to be recorded in future periods.

Loss on extinguishment of debt and other related costs. During the three months ended March 31, 2023, we incurred a loss on the early extinguishment of debt related to the early repayment of a portion of our term loan facility. We incurred non-cash charges related to the proportional share of unamortized deferred issuance costs.

Restructuring charges. During the three months ended March 31, 2024 and 2023, we incurred \$5.9 million and \$5.5 million, respectively, of restructuring charges primarily related to the redesign of our asset management, and customer and order management software systems.

US Ecology acquisition integration and deal costs. During the three months ended March 31, 2023, we incurred \$7.6 million of acquisition integration and deal costs in connection with the acquisition of US Ecology, Inc. (US Ecology). The acquisition closed on May 2, 2022. The costs are primarily related to the integration of certain software systems as well as rebranding the business.

Adjusted Free Cash Flow

The following table calculates our adjusted free cash flow, which is not a measure determined in accordance with U.S. GAAP, for the three months ended March 31, 2024 and 2023:

	Thre	e Months Ende	ed March 31,
		2024	2023
Cash provided by operating activities	\$	811.5 \$	687.7
Property and equipment received		(283.6)	(206.8)
Proceeds from sales of property and equipment		2.4	6.0
Cash paid related to adjustments to withdrawal liabilities for a multiemployer pension fund, net of tax		0.1	—
Restructuring payments, net of tax		4.2	3.7
US Ecology acquisition integration and deal costs, net of tax		—	4.9
Adjusted free cash flow	\$	534.6 \$	495.5

We believe that presenting adjusted free cash flow provides useful information regarding our recurring cash provided by operating activities after certain expenditures or recoveries. It also demonstrates our ability to execute our financial strategy and is a key metric we use to determine compensation. The presentation of adjusted free cash flow has material limitations. Adjusted free cash flow does not represent our cash flow available for discretionary payments because it excludes certain payments that are required or to which we have committed, such as debt service requirements and dividend payments.

Purchases of property and equipment as reflected on our consolidated statements of cash flows represent amounts paid during the period for such expenditures. A reconciliation of property and equipment expenditures reflected on our consolidated statements of cash flows to property and equipment received during the period follows for the three months ended March 31, 2024 and 2023:

	Thr	ee Months Ende	ed March 31,
		2024	2023
Purchases of property and equipment per the unaudited consolidated statements of cash flows	\$	514.5 \$	378.6
Adjustments for property and equipment received in a different period		(230.9)	(171.8)
Property and equipment received during the period	\$	283.6 \$	206.8

The adjustments noted above do not affect our net change in cash, cash equivalents, restricted cash and restricted cash equivalents as reflected in our consolidated statements of cash flows.

ACCOUNTS RECEIVABLE

As of March 31, 2024 and December 31, 2023, accounts receivable were \$1,763.0 million and \$1,768.4 million, net of allowance for doubtful accounts of \$82.6 million and \$83.2 million, respectively, resulting in days sales outstanding of 41.5, or 30.4 days net of deferred revenue, compared to 42.0, or

30.9 days net of deferred revenue, respectively.

CASH DIVIDENDS

In January 2024, we paid a cash dividend of \$168.3 million to shareholders of record as of January 3, 2024. As of March 31, 2024, we recorded a quarterly dividend payable of \$168.5 million to shareholders of record at the close of business on April 2, 2024, which was paid on April 15, 2024.

SHARE REPURCHASE PROGRAM

During the three months ended March 31, 2024, there were no shares of common stock repurchased. As of March 31, 2024, the remaining authorized purchase capacity under our October 2023 repurchase program was \$3.0 billion.

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This press release contains certain forward-looking information about us that is intended to be covered by the safe harbor for "forward-looking statements" provided by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that are not historical facts. Words such as "guidance," "expect," "will," "may," "anticipate," "plan," "estimate," "project," "intend," "should," "can," "likely," "could," "outlook" and similar expressions are intended to identify forward-looking statements. These statements include information about our plans, strategies and prospects. Forward-looking statements are not guarantees of performance. These statements are based upon the current beliefs and expectations of our management and are subject to risk and uncertainties that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot assure you that the expectations will prove to be correct. Among the factors that could cause actual results to differ materially from the expectations expressed in the forward-looking statements are the impacts of the overall global economy and increasing interest rates, our ability to effectively integrate and manage companies we acquire, and to realize the anticipated benefits of any such acquisitions, the amount of the financial contribution of our sustainability initiatives, acts of war, riots or terrorism, and the impact of these acts on economic, financial and social conditions in the United States, as well as our dependence on large, long-term collection, transfer and disposal contracts. More information on factors that could cause actual results or events to differ materially from those anticipated is included from time to time in our reports filed with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2023, particularly under Part I, Item 1A - Risk Factors. Additionally, new risk factors emerge from time to time and it is not possible for us to predict all such risk factors, or to assess the impact such risk factors might have on our business. We undertake no obligation to update publicly any forward-looking statements whether as a result of new information, future events or otherwise, except as required by law.
